### **Upgrading the 6085 workstation to GlobalView 3.2.38**

Enclosed you will find a new version of Xerox GlobalView software, **6085 Xerox GlobalView 3.2.38**. This software is provided by the XSoft division of Xerox in response to reported problems. GlobalView 3.2.38 combines fixes from 3.2.15, 3.2.19, 3.2.21, 3.2.24, 3.2.26, 3.2.29, 3.2.31 and 3.2.38. List of actual fixes will be included with this patch.

#### **Compatibility:**

This software should continue to function as before in addition to resolving reported problems. It also contains some new features for Conversions(See "GlobalView 3.2.15 New Features for Conversions" document). **YOU MUST HAVE GLOBALVIEW 3.2 OR GREATER INSTALLED BEFORE YOU INSTALL THIS PATCH.**

#### **Support:**

Xerox will support this software through your normal channels. If you experience a problem with your system, contact your local support center and please notify them that you are running GlobalView 3.2.38.

#### **Installation(6085):**

1. Go to the loader and turn off the applications that are being replaced. To do this go to the loader, PROPs the individual application in the loader, select NO to "Auto Run at System Startup", select "Done". Logoff the workstation. The applications being replaced in this release are:

**Mail**

**Vertical Writing**

**VP Document Editor**

**VP File Conversion of CGM Documents**

**VP File Conversion of Interleaf IAF**

**VP List Manager**

**VP Spelling Checker**

**VP Thesaurus**

**Xerox Equations**

2. Boot the 3.0/3.2 Installer from floppy. To do this:
  - a. Insert the floppy disk labeled 6085 XWS 3.0 Installer #1.
  - b. Press the red B reset button on the processor's front panel.
  - c. Press <F2> to boot from the floppy drive.
  - d. When the system prompts you, insert the 6085 XWS 3.2 Installer #2 floppy disk in the drive.
3. Select "Special Installation and Error Recovery Commands" from the Installer menu.
4. Select option #31 "Install Basic Workstation BootFile Only" from "Special Installation and Error Recovery Commands" menu.
5. When prompted for floppies ( i.e. 6085-1 Xerox ViewPoint Basic Workstation 2 thru 6), insert requested floppies that contain new bootfile.
6. When installation of bootfile is complete, Select option #33 "Install All Files From A Floppy" from "Special Installation and Error Recovery Commands" menu.
7. When prompted for floppy, insert floppy labeled XWS 3.2.38 New Common Software for Cusp, Conversion Common Software and Table Windows. Answer "Y" to prompt.
8. When installation of New Common Software is complete, reboot workstation.
9. Logon to the workstation, delete the applications that were set to AutoRun=No and load the new 3.2.38 applications from the floppies.

**MISCELLANEOUS HINTS**

**Caution:** If you are planning to upgrade the Installation File Drawer with this patch, **DO NOT** copy the files from the Installer floppy disks into the Installation File Drawer.

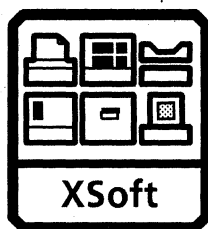

Loading this new bootfile will disable all Xerox Pro Illustrator Performance Enhancement levels that might have been set previously. If you had any of these enabled, you will need to re-enable them.

The new bootfile will be loaded during boot. During boot, The MPcodes of 149 or 199 may be sustained slightly longer than usual.

New software will be loaded during boot. During boot, the MPcodes of 7600 or 7700 may be sustained slightly longer than usual.

★**Note:** XGV 3.2.38 is a release from PSCO for distribution to customers as required. XGV 3.2.38 fixes 89 SPARs for the 6085, 6085-2, 65xx and PC hardware that runs XGV 3.2 or later. ★

## SPAR fixes that are included in 3.2.38

### XGV 3.2.38 SPAR Release

Application	Group	version		SPAR or AR	Description	Original Release No.
		Sun	Princ Ops			
<b>Document Editor</b>	Document Editor	X	X	1193	Problem upgrading 2.0 documents --> 3.0	3.2.15
	Document Editor	X	X	AR 1242	Draw transfer sheet disappears from page	3.2.15
	Field Content	X		1330	VP List Manager sorting problems on 65XX	3.2.15
	Document Editor	X	X	1458	Balanced columns are not balanced	3.2.15
	Document Editor	X	X	1461	Text frames superimposed on each other with balanced columns	3.2.15
	Document Editor	X	X	1477	Normalize text necessary after upgrade to VP 3.2	3.2.15
	Document Editor	X	X	1478	Widow lines at the bottom of the page	3.2.15
	Upgrade	X	X	1480	Crash when equation frame was included in 2.0 graphic frame	3.2.15
	Footnotes	X	X	1498	Widow and Orphan lines in footnotes	3.2.15
	Document Editor	X	X	11	Header appears when it shouldn't	3.2.21

### XGV 3.2.38 SPAR Release

Application	Group	version		SPAR or AR	Description	Original Release No.
		Sun	Princ Ops			
	Document Editor	X	X	18	Text following anchors disappears	3.2.21
	Document Editor	X	X	43	Page Headings do not work correctly	3.2.21
	Document Editor	X	X	109	Doc won't paginate on VP 3.2	3.2.21
	Document Editor	X	X	163	3.2.15 Widow/Orphan and Paginate problems	3.2.21
	Document Editor	X	X	175	Widow/Orphan lines pagination problems with 3.2.15	3.2.21
	Document Editor	X	X	180	Losing text when paginating	3.2.21
	Document Editor	X	X	186	Text Missing until Normalize Text/Paginate occurs	3.2.21
	Document Editor	X	X	195	Widow/Orphan lines following pagination	3.2.21
	Document Editor	X	X	214	Widow/Orphan lines with VP 3.2	3.2.21
	Document Editor	X	X	52	List Manager "make doc" creates tables you can't paginate	3.2.38
	Document Editor	X	X	184	Auto save not saving edits	3.2.38
	Document Editor	X	X	89	Font changes in Data-Driven Graphics when upgrading from 2.0 to 3.2	3.2.38
	Document Editor	X	X	102	Tabs won't hold correctly in multi line header	3.2.38
	Document Editor	X	X	185	Footnotes don't paginate correctly	3.2.38
	Document Editor	X	X	188	Doc with bal columns toggled on doesn't paginate or print correctly	3.2.38
	Document Editor	X	X	189	Document crashes converting footnotes from 2.x to 3.x	3.2.38
	Document Editor	X	X	218	Cusp doesn't execute Finalize Redlined revisions with VP 3.2.15	3.2.38

### XGV 3.2.38 SPAR Release

Application	Group	version		SPAR or AR	Description	Original Release No.
		Sun	Princ Ops			
<b>Spelling Checker</b>	Document Editor	X	X	1003	Doc crashes on close after Spell checking it	3.2.19
	Document Editor	X	X	1475	Closing document before Spell checking completes creates ghost icon	3.2.19
<b>BWS</b>	Installation	X		1239	Globalview unix installer should check for groups	3.2.15
	Logon	X		1280	Slow transfer of 6500 desktop to 8090	3.2.15
	Installation		X	54	XGV-PC limits partition sizes	3.2.15
	BWS Bootfile		X	88	NSFile Handle problem when copying or move docs to File drawer	3.2.24
			X	98	Extra line added when convert ASCII document to VP Document	3.2.24
			X	191	Screen refresh problem after move/copy	3.2.24
			X	192	Moving folder to File Drawer results in partial move	3.2.24
			X	210	Getting timeout error moving large files to file server	3.2.24
<b>CUSP</b>		X	X	1329	Crash occured running Cusp program with List Manager	3.2.15
		X	X	1490	CUSP not working correctly with Reference Icons	3.2.15
		X		21823 3424	Cusp program crashes since upgrading to 3.x	3.2.15
		X	X	AR 329	"For Each" command doesn't work in File Drawer	3.2.15
		X	X	AR 603	"For Each" command in floppy tool finds "nsroot"	3.2.15
	Cusp	X	X	30	CUSP fails with NSFile undefined problem: 768+	3.2.21
<b>KB Accelerator</b>		X		1054	Can't get out of unshifted tab instead get line return	3.2.15
		X		1211	Sun keyboard accelerator key k47 doesn't work	3.2.15

### XGV 3.2.38 SPAR Release

Application	Group	version		SPAR or AR	Description	Original Release No.
		Sun	Princ Ops			
		X		1212	Keyboard accelerator ignores some keys on default keyboard	3.2.15
<b>MS-DOS Floppy</b>			X	56	XGV-PC MS DOS Floppy not readable on native DOS machine ( <b>XGV-PC Only</b> )	3.2.31
<b>PC File Access</b>			X	1388	Copying DocuBuild Document to OS/2 fails ( <b>XGV-PC Only</b> )	3.2.15
			X	1393	Crash when opening a VP doc after moving to OS/2 and back ( <b>XGV-PC Only</b> )	3.2.15
			X	1394	Copying XPI Canvas to OS/2 not possible ( <b>XGV-PC Only</b> )	3.2.15
			X	1396	PCX, TIFF or SUN Canvases get corrupted when copied to OS/2 and back via PC File Access ( <b>XGV-PC Only</b> )	3.2.15
			X	1338	PC File Access time stamp does not match OS2 time stamp ( <b>XGV-PC Only</b> )	3.2.21
<b>List Manager</b>		X	X	1436	Crash occured in List Manager called by CUSP Program. Also fixes FX ARs 11223, 11240, 11271, 12366 which were released in FXGV 3.2.1 release.	3.2.15
		X	X	UWF X 11223	Crash when opening a document view whose document has Fill-in-rules	3.2.15
		X	X	UWF X 11240	A view in 8 - point font prints with incorrect alignment	3.2.15
		X	X	UWF X 12271	Cusp crashes using temporary filter conditions to retrieve	3.2.15
		X	X	UWF X 12366	Incorrect behavior when Cusp tries to store "Date" data into records	3.2.15
		X	X	UWF X 13378	CUSP program causes crash	3.2.15
		X	X	37	Creating View does not work correctly	3.2.39

### XGV 3.2.38 SPAR Release

Application	Group	version		SPAR or AR	Description	Original Release No.
		Sun	Princ Ops			
		X	X	183	Print out of document view causes system crash	3.2.39
		X	X	UWF X 13384	A Record file is randomly corrupted by View filtering	3.2.29
		X	X	UWF X 13683	Cusp randomly can't handle all records in a record file	3.2.29
		X	X	UWF X 13943	Sorting by 3 columns causes a crash	3.2.29
		X	X	UWF X 14346	All records randomly can't be displayed when being sorted	3.2.29
		X	X	UWF X 14470	Heavy cusp access can cause a crash	3.2.29
		X	X	UWF X 14571	Updating and deleting records can cause crash	3.2.29
		X	X	UWF X 14594	Upper/lower case filter problem	3.2.29
<b>Conversion Common Software</b>			X	1385	Copying files from OS/2 to Converter icon fails	3.2.15
			X	1467	Copying documents from file drawer directly to Converter doesn't work	3.2.15
			X	212	Converter crashes in manual setting and corrupts icon	3.2.26
<b>File Conversion of CGM Documents</b>		X	X	1275	CGM to several 3rd party packages unusable	3.2.15
		X	X	1434	File conversion does not work correctly	3.2.15

### XGV 3.2.38 SPAR Release

Application	Group	version		SPAR or AR	Description	Original Release No.
		Sun	Princ Ops			
		X	X	1466	Embedded text converted to CGM not visible in Word Perfect	3.2.15
		X	X	1499	Text frames are shifted ½inch after converted to CGM	3.2.15
<b>VP File Conversion of Interleaf IAF</b>		X	X	1351	The size of the frame is incorrect after conversion	3.2.15
		X	X	1399	Converting unassigned char to Interleaf causes system crash	3.2.15
		X	X	1408	WS crashes converting IAF to VP Illustrator Graph when Illustrator Basics is NOT running	3.2.15
		X	X	1518	Conversion hangs WS in VP File Conversion of Interleaf IAF	3.2.15
		X	X	1520	Crash when converting to illustrator	3.2.15
<b>VP Emulation of 3270</b>		X		1506	Type 5 keyboard problems w/3270 emulation	3.2.15
<b>Sun patch for floppy</b>		X		00536 2493	Screen break when formatting floppy in GV	3.2.15
<b>Floppy Tool</b>		X		809	Crashing when moving document from floppy to desktop	3.2.21
<b>Vertical Writing</b>		X	X		Vertical Writing 3.2.7 is required for the 3.2.38 version of Doc Editor	3.2.7
<b>VP Equations</b>			X	1456	VP Equations 3.2.13 is required for Vertical writing 3.2.7 and Document Editor 3.2.38	3.2.13
<b>Database Common Software</b>		X		1406	Populating incorrect data to data base damages SLBwDB	3.2.15
		X		59	Crash using NSDBEncryptImpl.DescribeEncryptedParameters	3.2.15
		X		60	Crash using NSDBEncryptImpl.DecryptParameters	3.2.15
<b>DocuTeam Modeling Basics</b>		X		1368	[Copy to Table] to an existing VP table doesn't retain character or paragraph properties	3.2.15

### XGV 3.2.38 SPAR Release

Application	Group	version		SPAR or AR	Description	Original Release No.
		Sun	Princ Ops			
DocuTeam Shared Library Books With Data Base		X		1462	Can't use DocuTeam to do Search on large tables	3.2.15

## Sun Patch for floppy information

---

Patch-ID # 100946-01

Keywords: 2 messages displayed when using FKFORMAT\_\_TRACK ioctl

Synopsis: SunOS 4.1.3 2 messages displayed when using FKFORMAT\_\_TRACK ioctl

Date: 19-Mar-93

BugId's fixed with this patch: 1122913

Changes incorporated in this version: 1122913

Architectures for which this patch is available: sun4c sun4m

Other patches which may be necessary for this patch: none

Obsoleted by: n/a

Instructions: Install patch a rebuild kernel

---

## Installation information

---

To update the applications, use the appropriate GlobalView documentation.

A Sun patch is included to fix SPAR 005362493. Only the patch is included on the GlobalView 3.2.15 tape. Every customer who receives this patch needs to rebuild their kernel to include the patch. To build a new kernel, please follow the instructions in the GlobalView Installation appendices.
